BRITISH JOURNAL OF INDUSTRIAL MEDICINE

VOLUME NINE
1952

EDITOR
RICHARD SCHILLING

LONDON
BRITISH MEDICAL ASSOCIATION
TAVISTOCK SQUARE, W.C.1

INDEX TO VOLUME 9, 1952

Subjects dealt with under various headings in the JOURNAL are set out both in the main Index and under their respective headings—for example, 'Abstracts,' 'Book Reviews.' Names of authors of original articles are included in the Index. There is a separate Index to Abstracts. Names of authors of articles abstracted are separately listed.

		Pages			Pages
No. 1.	January	1–92	No. 3.	July	165–244
No. 2.	April	93–164	No. 4.	October	245–328

A

Absence, sickness, recording of, in industry, 264
AITKEN-SWAN, JEAN. *see also* LAWRENCE, J. S., and AITKEN-SWAN, JEAN
Allergy to cotton dust, 186
4-Aminodiphenyl, carcinogenic action of, 255
ATKINS, J. B., and MARKS, J.: The role of staphylococcal infection in beat disorders of miners, 296

B

Bacteria, airborne, in cotton mills (D. G. DRUMMOND and MARY HAMLIN), 309
BARBER, L. E. D., *see also* MARKOWE, M., and BARBER, L. E. D.
Beat disorders of miners, role of staphylococcal infection in (J. B. ATKINS and J. MARKS), 296
BIDSTRUP, LESLEY, review by, 157
Bladder tumours, incidence of, in a dyestuffs factory (T. S. SCOTT), 127
——— ——— in dyestuff workers, 255
Blood changes in industrial disease (R. E. LANE), 245
Boilers, oil-fired, vanadium poisoning from cleaning, 50
Book Reviews:
T. M. ANDERSON: Human kinetics and analysing body movements, 1951, 160
Annual reports of the Chief Inspector of Factories for the years 1949 and 1950, 314
C. BIBBY: Health education: a guide to principles and practice, 1952, 233
Bulletin of Hygiene Reprints, 161
D. A. CAMPBELL: Eyes in industry, 1951, 317
E. G. CHAMBERS: Psychology and the industrial worker, 1951, 160
Committee of Enquiry on Industrial Health Services: Report, 1951, 84
B. V. CUNNINGHAM: Psychology for nurses, 1951, 316
A. T. DOIG and L. N. DUGUID: The health of welders, 1951, 157
First Aid—medical and surgical. By Cole and Puestow and 19 other authors, 1951, 85
Gassing casualties: a system of labels for gassing casualties sent to hospital, 1952, 232
B. HANMAN: Physical capacities and job placement, 85
Industrial Welfare Society: The health of executives: mental stress and breakdown, 1951, 160
Medical Research Council: The application of scientific methods to industrial and service medicine. By various authors, 1951, 83
Ministry of National Insurance: Second report, 1949–50, 157
G. MURPHY: An introduction to psychology, 1951, 315
W. J. H. SPROTT: Social psychology, 1952, 316
U.S. Public Health Service and Division of Industrial Hygiene: Health of ferrous foundrymen in Illinois, 1950, 158
N. WIENER: The human use of human beings, 1950, 232
Books received, list of, 233, 317
BROWNE, R. C., review by, 83
BUZZARD, R. B., and SHAW, W. J.: An analysis of absence under a scheme of paid sick leave, 282
Byssinosis and cotton dust, I, Bacteria and fungi in cotton dust (G. FURNESS and H. B. MAITLAND), 138
Byssinosis and cotton dust, II, Skin tests for allergy (H. R. CAYTON, G. FURNESS, and H. B. MAITLAND), 186
———— ———— ————, III, Comparison of cotton dust and house dust (H. R. CAYTON and others), 303

C

Cancer of bladder in dyestuff workers, 255
———, lung, as cause of death in gas workers, 180
———, skin, of the hand and forearm (C. N. D. CRUICKSHANK and A. GOUREVITCH), 75
Carcinogenic action of 4-aminodiphenyl and 3 : 2′-dimethyl-4-aminodiphenyl (A. L. WALPOLE, M. H. C. WILLIAMS, and D. C. ROBERTS), 255
Cardiovascular disease in cotton workers (R. S. F. SCHILLING, N. GOODMAN, and J. G. O'SULLIVAN), 146
CAYTON, H. R., FURNESS, G., and MAITLAND, H. B.: Cotton dust in relation to byssinosis, II, Skin tests for allergy, 186
————, ————, JACKSON, D. S., and MAITLAND, H. B.: Cotton dust in relation to byssinosis: III, comparison of cotton dust and house dust, 303
Coal miners, lung diseases of, history, in Great Britain, II, 1875–1920, 93; III, 1920–1952, 208
—— ——, pneumoconiosis of, in north east England (R. I. MCCALLUM), 99
—— particles, dispersion of, in lungs of miners (A. POLICARD), 108
Coproporphyrins, urinary, in lead poisoning (J. E. KENCH, R. E. LANE, and H. VARLEY), 133
Cortisone, effect of, on experimental silicosis (C. V. HARRISON and others), 165
Cotton dust and byssinosis, I, Bacteria and fungi in cotton dust (G. FURNESS and H. B. MAITLAND), 138
———— ———— ———— ————, II, Skin tests for allergy with extracts of cotton dust (H. R. CAYTON and others), 186
———— ———— ———— ————, III, Comparison of cotton dust and house dust (H. R. CAYTON and others).
———— ———— ———— house dust, comparison of, 303
———— mills, airborne bacteria in, 309
———— workers, cardiovascular disease in, 146
CRUICKSHANK, C. N. D., and GOULEVITCH, A.: Skin cancer of the hand and forearm, 75

D

DALE, J. C., *see also* HARRISON, C. V., and others
DAVIES, C. N.: Dust sampling and lung disease, 120
DAVIES, T. A. LLOYD, *see also* HARDING, H. E., and DAVIES, T. A. LLOYD
DENERLEY, R. A.: Some effects of paid sick leave on sickness absence, 275
3 : 2′-Dimethyl-4-aminodiphenyl, carcinogenic action of, 255
DOLL, R.: Causes of death among gas workers with special reference to lung cancer, 180
DRUMMOND, D. G., and HAMLIN, MARY: Airborne bacteria in cotton mills; I, Survey of counts of viable bacteria, 309
Durham coalfield, pneumoconiosis in, 99

Dust, cotton, bacteria and fungi in, 138
——, ——, compared with house dust, 303
——, ——, skin tests for allergy to, 186
—— exposure, industrial, a sampling procedure for measuring (P. D. OLDHAM and S. A. ROACH), 112
—— particles, penetration of, in pneumoconiosis (G. MOTTURA), 65
—— samples, simplified graticule for assessing, 80
—— sampling and lung disease (C. N. DAVIES), 120
Dusts, industrial, phagocytosis of, in tissue cultures, 175
Dyestuffs factory, incidence of bladder tumours in (T. S. SCOTT), 127

E

Ernestine Henry Lecture, 2nd, 245
EVANS, S. J.: Acute phenol poisoning, 227

F

FABRE, R., and TRUHAUT, R.: Toxicology of trichlorethylene, 39
FLETCHER, C. M., review by, 158
FURNESS, G., and MAITLAND, H. B.: Cotton dust in relation to byssinosis, I, Bacteria and fungi in cotton dust, 138
——————, *see also* CAYTON, H. R., FURNESS, G., and MAITLAND, H. B.
——————, *see also* CAYTON, H. R., FURNESS, G., JACKSON, D. S., and MAITLAND, H. B.

G

Gas workers, causes of death among, with special reference to lung cancer (R. DOLL), 180
GOUREVITCH, A., *see also* CRUICKSHANK, C. N. D., and GOUREVITCH, A.
Graticule, simplified, for assessing thermal precipitator dust samples, 80

H

HAMLIN, MARY, *see also* DRUMMOND, E. G., and HAMLIN, MARY
Hand and forearm, skin cancer of, 75
Handicap, psychological, effect of, in two factory groups (M. MARKOWE and L. E. D. BARBER), 221
HARDING, H. E., and DAVIES, T. A. LLOYD: Experimental production of radiographic shadows by the inhalation of industrial dusts. II, Zircon ($ZrSiO_4$), 70
HARRISON, C. V., KING, E. J., DALE, J. C., and SICHEL, R.: The effect of cortisone on experimental silicosis, 165
Heat, salt losses of men working in, 56
HERON, A., review by, 160, 315, 316
HEYNINGEN, R. E. VAN, *see also* WEINER, J. S., and HEYNINGEN, R. E. VAN
HILL, SIR LEONARD, obituary, 230
HUGHES, J. P. W.: Sickness absence recording in industry, 264
Hypertension in cotton workers, 146

I

Illnesses, common, coding of, for recording sickness absence, 274

J

JACKSON, D. S., *see also* CAYTON, H. R., FURNESS, G., JACKSON, D. S., and MAITLAND, H. B.
JAHODA, G., review by, 316
JÖTTEN, K. W., and MARWYCK, C. VAN: Phagocytosis of industrial dusts in tissue cultures, 173

K

KELLGREN, J. H., and LAWRENCE, J. S.: Rheumatism in miners; II, *X*-ray study, 197
KENCH, J. E., LANE, R. E., and VARLEY, H.: Urinary coproporphyrins in lead poisoning, 133
KING, E. J., *see also* HARRISON, C. V., and others
KUHN, HEDWIG S., review by, 317

L

LANE, R. E.: Blood changes in industrial disease, 245
——————, review by, 157
LAWRENCE, J. S., and AITKEN-SWAN, JEAN: Rheumatism in miners, I. Rheumatic complaints, 1
——————, *see also* KELLGREN, J. H., and LAWRENCE, J. S.
Lead poisoning, urinary coproporphyrins in (J. E. KENCH, R. E. LANE, and H. VARLEY), 133
LEAF, G., and ZATMAN, L. J.: A study of methanol as an industrial toxic hazard, 19
Lung cancer as cause of death in gas workers, 180
—— disease and dust sampling (C. N. DAVIES), 120
—— diseases of coal miners in Great Britain, history; II, 1875–1920 (A. MEIKLEJOHN), 93
—— —— —— of coal miners in Great Britain, history; III, 1920–1952 (A. MEIKLEJOHN), 208
——, dispersion of coal particles in miners', 108
—— shadows, production of, by industrial dusts. II, Zircon (H. E. HARDING and T. A. LLOYD DAVIES), 70

M

MCCALLUM, R. I.: Pneumoconiosis of coal miners in north east England, 99
MAITLAND, H. B., *see also* CAYTON, H. R., FURNESS, G., and MAITLAND, H. B.
——————, *see also* FURNESS, G., and MAITLAND, H. B.
——————, *see also* CAYTON, H. R., FURNESS, G., JACKSON, D. S., and MAITLAND, H. B.
MARKOWE, M., and BARBER, L. E. D.: Effect of psychological handicap in two factory groups, 221
MARKS, J., *see also* ATKINS, J. B., and MARKS, J.
MARWYCK, C. VAN, *see also* JÖTTEN, K. W., and MARWYCK, C. VAN
MAULE, H. G., review by, 314
MEIKLEJOHN, A.: History of lung diseases of coal miners in Great Britain; II, 1875–1920, 93; III, 1920–1952, 208
Methanol as a toxic hazard in industry (G. LEAF and L. J. ZATMAN), 19
Methyl bromide poisoning, 8 cases (J. H. PRAIN and G. HARVEY SMITH), 44
Miners, beat disorders of, role of staphylococcal infection in (J. B. ATKINS and J. MARKS), 296
——, coal, lung diseases of, in Great Britain, history, 93, 208
——, dispersion of coal particles in lungs of, 108
——, rheumatism in (J. S. LAWRENCE and JEAN AITKEN-SWAN), 1
——, —— —— ——; II, *X*-ray study, 197
MOTTURA, G.: Penetration of dust particles and sites of dust stores in pneumoconiosis, 65

N

NORMAN, L. G., review by, 160

O

Occupational health prize, B.M.A., 318
OLDHAM, P. D., and ROACH, S. A.: A sampling procedure for measuring industrial dust exposure, 112

P

Phagocytosis of industrial dusts in tissue cultures (K. W. JÖTTEN and C. VAN MARWYCK) 173
Phenol poisoning, acute (S. J. EVANS), 227
Pneumoconiosis of coal miners in north east England (R. I. MCCALLUM), 99
——————, penetration of dust particles and sites of dust stores in, (G. MOTTURA) 65

Poisoning, acute phenol (S. J. EVANS), 227
————, industrial, blood changes due to, 245
————, methanol, in industry, 19
————, methyl bromide, 44
————, trichloreth[illegible]lene, 39
————, vanadium, from cleaning oil-fired boilers, 50
POLICARD, A.: Mechanism of dispersion of coal particles in the lungs of miners, 108
PRAIN, J. H., and SMITH, G. HARVEY, 8 cases of methyl bromide posioning, 44
Prize, Occupational Health, 318
Psychological handicap, effect of, in two factory groups (M. MARKOWE and L. E. D. BARBER), 221

R

Rheumatism in miners (J. S. LAWRENCE and JEAN AITKEN-SWAN), I
———— — ———— : II, *X*-ray study (J. H. KELLGREN and J. S. LAWRENCE), 197

R

ROACH, S. A., *see also* OLDHAM, P. D., and ROACH, S. A.
ROBERTS, D. C., *see also* WALPOLE, A. L., WILLIAMS, M. H. C., and ROBERTS, D. C.

S

Salt losses of men working in hot environments (J. S. WEINER and R. E. VAN HEYNINGEN), 56
SCHILLING, R. S. F., GOODMAN, N., and O'SULLIVAN, J. G.: Cardiovascular disease in cotton workers, 146
————————, review by, 161
Scholarships in aid of scientific research, B.M.A., 318
SCOTT, T. S.: Incidence of bladder tumours in a dyestuffs factory, 127
SHAW, W. J., *see also* BUZZARD, R. B., and SHAW, W. J.
SICHEL, R., *see* HARRISON, C. V., and others
Sickness absence, analysis of, under a scheme of paid sick leave, 282
———— ————, effects of paid sick leave on (R. A. DENERLEY), 275
———— ———— recording in industry (J. P. W. HUGHES), 264
Sick leave, paid, analysis of absence under a scheme of (R. B. BUZZARD and W. J. SHAW), 282
—— ——, ——, effects of, on sickness absence (R. A. DENERLEY), 275
Silicosis, experimental, effect of cortisone on, 165
Skin cancer of the hand and forearm, 75
SMITH, G. HARVEY, *see also* PRAIN, J. H., and SMITH, G. HARVEY
Staphylococcal infection, role of, in beat disorders of miners, 296
STEWART, DONALD, review by, 84, 85

T

Tetranitromethane, determination of small amounts of, in air (V. B. VOUK and O. A. WEBER), 32
THOMSON, M. L., review by, 160
TREVETHICK, R. A., review by, 86
TRUHAUT, R., *see also* FABRE, R., and TRUHAUT, R.
Trichlorethylene, toxicology of (R. FABRE and R. TRUHAUT), 39
Tumours, bladder, incidence of, in a dyestuffs factory, 127
————, ————, in dyestuff workers, 255

V

Vanadium poisoning from cleaning oil-fired boilers (N. WILLIAMS), 50
VOUK, V. B., and WEBER, O. A.: Determination of small amounts of tetranitromethane in air, 32

W

WALPOLE, A. L., WILLIAMS, M. H. C., and ROBERTS, D. C.: The carcinogenic action of 4-aminodiphenyl and 3:2′-dimethyl-4-aminodiphenyl, 255
WATSON, H. H.: Simplified eye-piece graticule for assessing thermal precipitator dust samples, 80
WEBER, O. A., *see also* VOUK, V. B., and WEBER, O. A.
WEINER, J. S., and HEYNINGEN, R. E. VAN: Salt losses of men working in hot environments, 56
WILLIAMS, M. H. C., *see also* WALPOLE, A. L., WILLIAMS, M. H. C., and Roberts, D. C.
WILLIAMS, N.: Vanadium poisoning from cleaning oil-fired boilers, 50

X

X-ray study of rheumatism in miners, 197

Z

ZATMAN, L. J., *see* LEAF, G., and ZATMAN, L. J.
Zircon, production of radiographic shadows by inhalation of dust of (H. E. HARDING and T. A. LLOYD DAVIES), 70

INDEX TO ABSTRACTS

** denotes that only the title is included with the abstracts*

A

Aberdeen, granite industry in, silicosis in, 241
Accidents in coal mines, 235
Aeroembolism and aeroemphysema, relation of circulatory rate to, 92
Aldrin poisoning in man ; case-report, 320
Altitudes, high, effect of oxygen inhalation at, 92
————, ——, physiological and clinical observations at, 92
————, ——, simulated, changes in bone marrow pressure during exposure to, 164
*Arsenical dermatitis, occupational, in a copper ore smelting works, 322
Arsine poisoning, acute, electrocardiographic changes produced by, 243
Asbestosis, experimental, in rats ; effect of particle size and added alumina, 239
Asthma and eczema in hydrogen peroxide workers, 91
Aurin tricarboxylic acid, as protection against experimental beryllium poisoning, 91

B

BAL in prevention and treatment of experimental skin lesions due to chromium derivatives, 164
Ball-clay industry, silicosis in, 321
*Benzidine, exposure to, method of estimating, 320
Beryllium granulomas of the skin, experimental, 91
*———— oxide, osteogenic sarcoma after inhalation of, 91
———— poisoning, acute, mechanism of, 243
———— ————, current concepts of, 319
———— ———— in American industries, 88
*———— ————, protection against, by aurin tricarboxylic acid, 91
Bladder and kidney lesions in dye-workers, 87
——— cancer, industrial, experimental enquiry into cause of, 242
Blood volume, significance of loss of, during pressure breathing, 92
Bone marrow pressure, changes in, during exposure to simulated altitude, 164

C

Cadmium poisoning, 89
Cancer, lung, in chromate workers, 163
———, occupational in a chromate plant, 163
——— of bladder, industrial, aetiology of, 242
Carcinogenic hydrocarbons and related compounds in processed rubber, 163
Carcinoma, bronchiogenic, aetiological factors in ; report of 857 cases, 321
China-clay industry, silicosis in, 321
Chromate workers, lung cancer in, 163
———— ————, skin lesions of, BAL in prevention and treatment of, 164
Circulatory rate related to aeroembolism and aeroemphysema, 92
Coal dust, bituminous, effect of, on lungs ; I, Effects on susceptibility to pneumonia, 241
—— ——, reaction of lungs to different kinds of, 240
Coal mines, accidents in, 235
Cyanide poisoning, industrial, treatment of, 319
———— ———————, sodium tetrathionate as antidote in, 90

D

*Dermatitis, arsenical, occupational, in a copper ore smelting works, 322
————————, contact, from oil soluble gasoline dyes, 322
————————, industrial, 322
Dermatoses, occupational, in physicians, 322
Dinitro-*ortho*-cresol poisoning, experimental, in human volunteers, 162
Dust, coal, reaction of lungs to different kinds of, 240
Dyes, oil soluble gasoline, contact dermatitis from, 322
Dye-workers, bladder and kidney lesions in, 87

E

Eczema and asthma in hydrogen peroxide workers, 91
Electrocardiographic changes produced by acute arsine poisoning, 243
Ethylene amines, exposure to, clinical experiences with, 243

F

Fluorspar workers, pneumoconiosis in, 320

G

*Glyoxalidine (or imidazoline) fungicide, toxicity of, 320
Grainworkers, pulmonary tuberculosis in, 242
Granite industry in Aberdeen, silicosis in, 241

H

Hydrogen peroxide workers, asthma and eczema in, 91
———— sulphide poisoning in shale oil industry, 89

I

*Imidazoline (or glyoxalidine) fungicide, toxicity of, 320

J

*Japan, silicosis in the metal mines of, 321
Jaundice and radial paralysis, related to lead poisoning, 87

L

*Lead poisoning, current practices in clinical diagnosis of, 162
—— ————, intestinal volvulus precipitated by, 162
—— ————, jaundice and radial paralysis related to, 87
—— ————, sodium citrate treatment of, 87
—— ————, urinary porphyrin test in detection of, 162
Lung cancer in chromate workers, 163
—— ——, industrial exposures in production of, 321
——, effect of bituminous coal dust on ; I, Effects on susceptibility to pneumonia, 241
—— reaction to different kinds of coal dust, 240

M

Miners, silicosis in, radiology of, 240
*Mines, metal, of Japan, silicosis in, 321

O

Oxygen inhalation at high altitudes, effect of, 92

P

Paralysis, radial, with jaundice, related to lead poisoning, 87
" Parathion " poisoning, therapeutic possibilities, 242
Physicians, occupational dermatoses of, 322
Poisoning, aldrin, in man ; case-report, 320
———, arsine, acute, electrocardiographic changes produced by, 243
———, beryllium, acute, mechanism of, 243
———, ———, current concepts of, 319
———, ———, in American industries, 88
———, cadmium, 89
———, cyanide, sodium tetrathionate as antidote in, 90
———, dinitro-*ortho*-cresol, 162
———, hydrogen sulphide, in shale oil industry, 89
*———, lead, current practices in clinical diagnosis of, 162
———, ——, intestinal volvulus precipitated by, 162
———, ——, jaundice and radial paralysis related to, 87
———, ——, sodium citrate treatment of, 87
———, " Parathion ", 242
———, potassium bromate, 89
———, selenium anhydride, 163
Polymer-fume fever, 244
Polypropylene glycols, toxicology of, 90
Potassium bromate poisoning, 89
Pneumoconiosis ; a histological survey of necropsy material in 1,205 cases, 239
——————— and silicosis, 91
——————— in fluorspar workers, 320
——————— — soot workers, 238
Pressure breathing, significance of loss blood volume into limbs during, 92

R

Renal function in silicosis, 91
Rubber, processed, carcinogenic hydrocarbons in, 163

S

*Sarcoma, osteogenic, after inhalation of beryllium oxide, 91
Selenium anhydride, toxicity of, 163
Shale oil industry, hydrogen sulphide poisoning in, 89
Silicosis and pneumoconiosis, 91
——— in ball-clay and china-clay industries, 321
——— — granite industry in Aberdeen, 241
*——— — metal mines of Japan, 321
——— — miners ; classification of radiological pictures, interpretation, evolution, 240
———, medical prophylaxis of, 240
———, renal function in, 91
Skin lesions due to chromium derivatives, BAL in prevention and treatment of, 164
Sodium citrate treatment of lead poisoning, 87
——— tetrathionate as an antidote in cyanide poisoning, 90
Soot workers, pneumoconiosis among, 238

T

*Tetraethyl-ammonium ion, respiratory complications from, 163
Tuberculosis, pulmonary, in grainworkers, 242
———, ———, mortality in the printing and shoemaking trades, 1881–1931, 242

U

Urinary porphyrin test in detection of lead absorption, 162

V

Volvulus, intestinal, precipitated by lead poisoning, 162

CONTENTS

No. 1. *JANUARY* 1952

Rheumatism in Miners. Part I : Rheumatic Complaints.
J. S. LAWRENCE and JEAN AITKEN-SWAN 1
A Study of the Conditions under which Methanol may Exert a Toxic Hazard in Industry.
G. LEAF and L. J. ZATMAN 19
The Determination of Small Amounts of Tetranitromethane in Air.
V. B. VOUK and O. A. WEBER 32
Contribution à l'Etude de la Toxicologie du Trichloréthylène. II.
RENÉ FABRE et RENÉ TRUHAUT 39
A Clinical-pathological Report of Eight Cases of Methyl Bromide Poisoning.
J. H. PRAIN and G. HARVEY SMITH 44
Vanadium Poisoning from Cleaning Oil-fired Boilers.
N. WILLIAMS 50
Salt Losses of Men Working in Hot Environments.
J. S. WEINER and R. E. VAN HEYNINGEN 56
Penetration of Dust Particles and Sites of Dust Stores in Pneumoconiosis.
GIACOMO MOTTURA 65
The Experimental Production of Radiographic Shadows by the Inhalation of Industrial Dusts. Part II : Zircon ($ZrSiO_4$).
H. E. HARDING and T. A. LLOYD DAVIES 70
Skin Cancer of the Hand and Forearm.
C. N. D. CRUICKSHANK and A. GOUREVITCH 74
Simplified Eye-piece Graticule for Assessing Thermal Precipitator Dust Samples.
H. H. WATSON 80
Book Reviews 83
Abstracts 87

No. 2. *APRIL* 1952

History of Lung Diseases of Coal Miners in Great Britain. Part II : 1875–1920.
ANDREW MEIKLEJOHN 93
Pneumoconiosis of Coal Miners in North East England with Special Reference to the Durham Coalfield.
R. I. MCCALLUM 99
The Mechanism of Dispersion of Coal Particles in the Lungs of Miners.
A. POLICARD 108
A Sampling Procedure for Measuring Industrial Dust Exposure.
P. D. OLDHAM and S. A. ROACH 112
Dust Sampling and Lung Disease. C. N. DAVIES 120
The Incidence of Bladder Tumours in a Dyestuffs Factory.
T. S. SCOTT 127
Urinary Coproporphyrins in Lead Poisoning.
J. E. KENCH, R. E. LANE, and H. VARLEY 133
Studies on Cotton Dust in Relation to Byssinosis. Part I : Bacteria and Fungi in Cotton Dust.
G. FURNESS and H. B. MAITLAND 138
Cardiovascular Disease in Cotton Workers. Part II : A Clinical Study with Special Reference to Hypertension.
R. S. F. SCHILLING, N. GOODMAN, and J. G. O'SULLIVAN 146
Book Reviews 157
Abstracts 162

No. 3. *JULY* 1952

The Effect of Cortisone on Experimental Silicosis.
C. V. HARRISON, E. J. KING, J. C. DALE, and R. SICHEL 165

The Phagocytosis of Industrial Dusts in Tissue Cultures.
KARL WILHELM JÖTTEN and CHRISTIAN VAN MARWYCK 173

The Causes of Death among Gas-workers with Special Reference to Cancer of the Lung. RICHARD DOLL 180

Cotton Dust in Relation to Byssinosis. Part II: Skin Tests for Allergy with Extracts of Cotton Dust.
H. R. CAYTON, G. FURNESS, and H. B. MAITLAND 186

Rheumatism in Miners. Part II: *X*-ray Study.
J. H. KELLGREN and J. S. LAWRENCE 197

History of Lung Diseases of Coal Miners in Great Britain. Part III: 1920–1952. ANDREW MEIKLEJOHN 208

The Effect of Psychological Handicap in Two Factory Groups.
MORRIS MARKOWE and L. E. D. BARBER 221

Acute Phenol Poisoning. S. JENKIN EVANS 227

Obituary 230

Book Reviews 232

Abstracts 235

No. 4. *OCTOBER* 1952

Blood Changes in Industrial Disease.
RONALD E. LANE 245

The Carcinogenic Action of 4-Aminodiphenyl and 3 : 2′-Dimethyl-4-Amino-diphenyl.
A. L. WALPOLE, M. H. C. WILLIAMS, and D. C. ROBERTS 255

Sickness Absence Recording in Industry.
J. P. W. HUGHES 264

Some Effects of Paid Sick Leave on Sickness Absence.
R. A. DENERLEY 275

An Analysis of Absence Under a Scheme of Paid Sick Leave.
R. B. BUZZARD and W. J. SHAW 282

The Role of Staphylococcal Infection in Beat Disorders of Miners.
J. B. ATKINS and J. MARKS 296

Studies on Cotton Dust in Relation to Byssinosis. Part III: Comparison of Cotton Dust and House Dust by Chemical and Skin Tests.
H. R. CAYTON, G. FURNESS, D. S. JACKSON, and H. B. MAITLAND .. 303

Airborne Bacteria in Cotton Mills. I. Survey of Counts of Viable Bacteria.
D. G. DRUMMOND and MARY HAMLIN. II. Determination of Types of Viable Bacteria. MARY HAMLIN 309

Book Reviews 314

President of the Association of Industrial Medical Officers and Hon. Editor of the Transactions of the Association of Industrial Medical Officers *ex officio*

APPOINTED BY THE
BRITISH MEDICAL ASSOCIATION AND THE ASSOCIATION OF INDUSTRIAL MEDICAL OFFICERS

NOTICE TO CONTRIBUTORS

The *British Journal of Industrial Medicine* is primarily intended for the publication of original work in industrial medicine. It also provides a review and abstract section.

All papers submitted for publication and all other editorial matters should be referred to Dr. Richard Schilling, Nuffield Department of Occupational Health, University of Manchester, Manchester, 13.

Adequate reference should be made to previous work on the subject of the paper. A summary of observations and conclusions must be given. A paper describing a single case will not be accepted unless the case is sufficiently rare, or shows important features which have not been previously described, or has been made the subject of special observation or experiment.

Papers sent for publication must be typewritten, in double spacing, on one side of the paper only. Where half-tone reproduction of *x*-ray illustrations is required, authors should send in the original film and not prints. Photographs and photomicrographs should be printed on glossy paper. Charts and graphs accompanying papers should be carefully drawn in black ink on tracing linen or Bristol board or stout, smooth, white paper. Any lettering on these drawings should be lightly inserted in pencil.

References should be arranged according to the Harvard system as in the following example:

Dunn, C. W. (1940). *J. Amer. med. Ass.*, 115, 2263.

Contributors will receive one proof, but it is assumed that all but verbal corrections have been made in the original manuscript; an allowance at the rate of ten shillings per sheet of sixteen pages is made for alterations in the proof (printer's errors excepted), and contributors will be responsible for any excess.

Fifty free reprints of articles will, if desired, be given to contributors. A limited number of additional reprints at cost price can be supplied if application is made when returning proofs. An estimate of costs will be given on application to the Publishing Manager, British Medical Association.

Papers which have been published become the property of the *British Journal of Industrial Medicine* and permission to republish must be obtained from the Editor.

Application for advertisement space should be addressed to the Advertisement Manager, British Medical Association, Tavistock Square, London, W.C.1.

NOTICE TO SUBSCRIBERS

Subscriptions are payable to the British Medical Association. Address: British Medical Association House, Tavistock Square, London, W.C.1.
